AWSAJ GRADE 5 MATHEMATICS

White Rose (Year 6) mapped to the Common Core
Teaching & Pacing Handbook

2026–2027 · taught one CCSS domain at a time · three pacing strands · for teachers and teaching assistants

LESSONS	138 on the Standard strand: 85 White Rose lessons, 4 copied in from other grades, 16 CCSS custom lessons still to be built, 33 enrichment lessons after MAP
CALENDAR	QFS 2026–2027 · W01 starts 6 Sep 2026 · 39 Sun–Thu weeks · 177 teaching days · Semester 1 is W01–W14
STRUCTURE	5 domain units, each taught in one run and closed by its Awsaj domain exam · MAP Growth window W30 · enrichment W31–W38
STANDARDS	Common Core Grade 5 · 26 grade-level standards, 26 taught before MAP · 16 power standards
STRANDS	Standard 138 lessons (~4 a week) · Priority 111 (~3) · Intervention 79 (~2) · the other days are support blocks
ASSESSMENT	5 Awsaj domain exams (2 count for Semester 1, 3 for Semester 2), all in the Grade 5 Math Assessments booklet · White Rose papers are optional practice
COMPANIONS	Weekly Pacing Guide (landscape, all 39 weeks) · K–5 pacing workbook (spreadsheet) · the curriculum site, where every lesson opens its slides, worksheets, MW4K sheets, teaching guide and support lessons

CHOOSING A STRAND · AND CHANGING IT WHENEVER YOUR STUDENTS NEED YOU TO

Standard · the class is broadly within a year of grade level: about 4 new lessons a week, every lesson. **Priority** · the class carries broad gaps: about 3 a week, the most important lessons for struggling learners, the rest support blocks. **Intervention** · the small-group class: about 2 a week, the essential lessons with support wrapped around them.

The strands are flexible. Move a student, a group or the whole class up towards Standard as soon as the work is secure, and down to Priority or Intervention the moment it stops fitting, in any week and as often as they need it. All three strands teach the same domain at the same time and sit its exam in the same week, so a change at a domain boundary is always clean. Mid-domain a lighter strand may sit a lesson or two behind Standard: a student moving up picks those lessons up in a support block, and moving down never loses a lesson.

DAILY FLUENCY · 10–15 MINUTES, EVERY DAY

The Fluency Bee scheme itself runs Year 1 to Year 4 (KG to Grade 3), so there is no Grade 5 book. The daily 10-15 minute fluency slot still runs every day: use the Fluency Bee sequence at whatever point your students actually need (number bonds, times-tables, whichever facts are not yet automatic) or the phase fluency diet where the facts are secure.

Daily is the part that is fixed. Number facts become automatic through a little purposeful practice every day, and the main lesson assumes those facts are already there. Protect the slot even in a short week. **Where you start is flexible:** find where the facts actually break down and start there.

◎ Grade 5 on one page

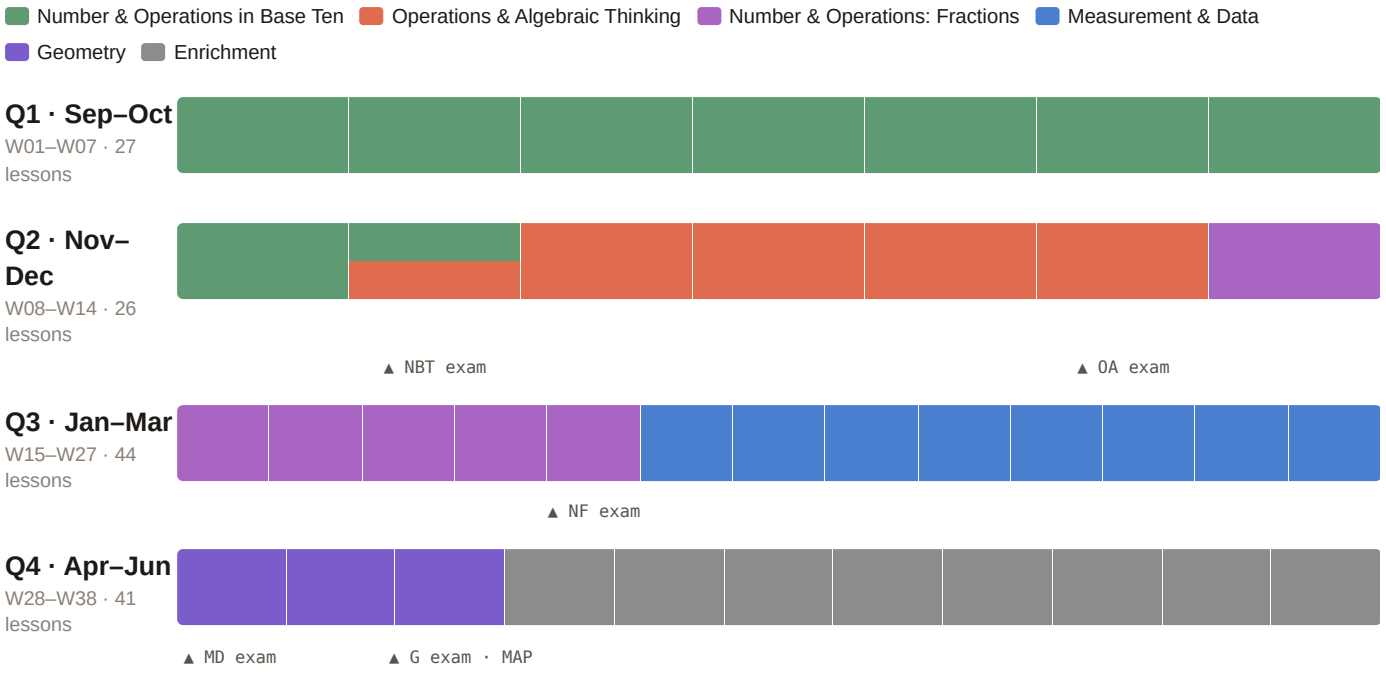

QUARTER	DOMAINS IN TEACHING ORDER · EXAMS · MAP
Q1 W01–W07 · Sep–Oct	**D1 Number & Operations in Base Ten** W01–W09
Q2 W08–W14 · Nov–Dec	**D1 Number & Operations in Base Ten (continues from Q1)** W01–W09 **D2 Operations & Algebraic Thinking** W09–W13 **D3 Number & Operations: Fractions** W14–W19 Number & Operations in Base Ten exam W09 · Operations & Algebraic Thinking exam W13
Q3 W15–W27 · Jan–Mar	**D3 Number & Operations: Fractions (continues from Q2)** W14–W19 **D4 Measurement & Data** W20–W28 Number & Operations: Fractions exam W19
Q4 W28–W39 · Apr–Jun	**D4 Measurement & Data (continues from Q3)** W20–W28 **D5 Geometry** W28–W30 **Enrichment lessons** W31–W38 Measurement & Data exam W28 · Geometry exam W30 · MAP Growth W30

THE RULES OF THE YEAR

- Each domain is taught in **one run** and closed by its **Awsaj domain exam**, on every strand in the same week.
- Every type of question on a domain exam is taught **before** that exam; where White Rose did not teach a skill here, a lesson is copied in from another grade or a CCSS lesson is listed to be built.
- Every grade-level standard is taught and examined **before the spring MAP window (W30)**; the enrichment lessons come after it.
- A domain is not taught again once it is examined: Flashback 4 and the daily fluency slot keep earlier domains alive, and gaps from an exam go into the next support blocks.
- Exams sat by W14 count for the Semester 1 report; the rest count for Semester 2.

❖ The year at a glance

One column is one teaching week, coloured by the domain the Standard strand teaches that week (a split column is a week where one domain ends and the next begins). ▲ marks a domain exam or the MAP window.

1 · The domains · lessons, power standards and exams

#	DOMAIN	WEEKS	LESSONS S / P / I	POWER STANDARDS	EXAM
D1	**Number & Operations in Base Ten** **To build:** Compare digit values: a digit is worth 10 times the place to its right and 1/10 of the place to its left; Read and write decimals to thousandths in word form and expanded form; Multiply and divide decimals by powers of 10 written with exponents (10^1, 10^2, 10^3) and explain the pattern; Multiply decimals by decimals; Divide by a decimal **Copied in:** Multiply up to a 4-digit number by a 1-digit number (G4); Order and compare any decimals with up to 3 decimal places (G4)	W01–W09	32 / 31 / 27	5.NBT.A.1, 5.NBT.A.2, 5.NBT.A.3, 5.NBT.B.5, 5.NBT.B.6, 5.NBT.B.7	W09 S1 report
D2	**Operations & Algebraic Thinking** **To build:** Evaluate expressions with parentheses, brackets and braces; Write and interpret numerical expressions (words to expressions, expressions to words); Generate two sequences using two different rules; Form ordered pairs from corresponding terms **Copied in:** Factors (G4)	W09–W13	16 / 14 / 10	5.G.A.1, 5.G.A.2, 5.OA.A.1, 5.OA.A.2, 5.OA.B.3	W13 S1 report
D3	**Number & Operations: Fractions** **To build:** Multiplication as scaling; Find the area of a rectangle with fractional side lengths; Divide a whole number by a unit fraction	W14–W19	23 / 21 / 18	5.NF.B.3, 5.NF.B.6	W19 S2 report
D4	**Measurement & Data** **To build:** Convert customary units of length (inches, feet, yards, miles); Volume of composite solids; Fraction line plots **Copied in:** Cubic centimetres (G4)	W20–W28	26 / 21 / 18	5.MD.A.1, 5.MD.C.5	W28 S2 report
D5	**Geometry** **To build:** Classify two-dimensional figures in a hierarchy	W28–W30	8 / 4 / 4	5.G.A.1, 5.G.A.2, 5.G.B.4	W30 S2 report
E	**Enrichment lessons** After MAP: lessons White Rose teaches here that reach above grade level, plus end-of-year work.	W31–W38	33 / 20 / 2	·	·

THE DOMAIN EXAMS · GRADE 5 MATH ASSESSMENTS BOOKLET

WEEK	EXAM	REPORT	QUESTIONS	BOOKLET
W09	**Number & Operations in Base Ten**	Semester 1	15	Number & Operations in Base Ten Test · Grade 5 Math Assessments
W13	**Operations & Algebraic Thinking**	Semester 1	9	Operations & Algebraic Thinking Test · Grade 5 Math Assessments
W19	**Number & Operations: Fractions**	Semester 2	16	Number & Operations - Fractions Test · Grade 5 Math Assessments
W28	**Measurement & Data**	Semester 2	17	Measurement & Data Test · Grade 5 Math Assessments
W30	**Geometry**	Semester 2	9	Geometry Test · Grade 5 Math Assessments

All of a grade's exams are in one booklet in the shared 2025-2026 Math Assessments folder; each link opens it. Every question was checked against the lessons taught before its exam.

CCSS LESSONS STILL TO BE MADE · 16

White Rose does not teach these standards in this grade, so an Awsaj lesson has to be written. Until it is, use the Twinkl search, the MW4K sheets and the prerequisite lessons on the lesson's paperclip on the site.

WEEK	LESSON	CCSS	DOMAIN
W06	**Compare digit values: a digit is worth 10 times the place to its right and 1/10 of the place to its left**	5.NBT.A.1	Number & Operations in Base Ten
W06	**Read and write decimals to thousandths in word form and expanded form**	5.NBT.A.3.A	Number & Operations in Base Ten
W07	**Multiply and divide decimals by powers of 10 written with exponents (10^1, 10^2, 10^3) and explain the pattern**	5.NBT.A.2	Number & Operations in Base Ten
W08	**Multiply decimals by decimals**	5.NBT.B.7	Number & Operations in Base Ten
W08	**Divide by a decimal**	5.NBT.B.7	Number & Operations in Base Ten
W11	**Evaluate expressions with parentheses, brackets and braces**	5.OA.A.1	Operations & Algebraic Thinking
W11	**Write and interpret numerical expressions (words to expressions, expressions to words)**	5.OA.A.2	Operations & Algebraic Thinking
W13	**Generate two sequences using two different rules**	5.OA.B.3	Operations & Algebraic Thinking
W13	**Form ordered pairs from corresponding terms**	5.OA.B.3	Operations & Algebraic Thinking
W16	**Multiplication as scaling**	5.NF.B.5, 5.NF.B.5.A, 5.NF.B.5.B	Number & Operations: Fractions
W17	**Find the area of a rectangle with fractional side lengths**	5.NF.B.4.B	Number & Operations: Fractions
W18	**Divide a whole number by a unit fraction**	5.NF.B.7, 5.NF.B.7.B, 5.NF.B.7.C	Number & Operations: Fractions
W21	**Convert customary units of length (inches, feet, yards, miles)**	5.MD.A.1	Measurement & Data
W24	**Volume of composite solids**	5.MD.C.5, 5.MD.C.5.C	Measurement & Data
W25	**Fraction line plots**	5.MD.B.2	Measurement & Data
W29	**Classify two-dimensional figures in a hierarchy**	5.G.B.3, 5.G.B.4	Geometry

LESSONS COPIED IN FROM ANOTHER GRADE · 4

Each one closes a gap between what the domain exam asks and what White Rose teaches in this grade. Teach it from the source grade's files (they open from the lesson on the site).

WEEK	LESSON	FROM	CCSS
W03	**Multiply up to a 4-digit number by a 1-digit number**	G4	5.NBT.B.5
W06	**Order and compare any decimals with up to 3 decimal places**	G4	4.NF.C.7, 5.NBT.A.3
W09	**Factors**	G4	4.OA.B.4
W23	**Cubic centimetres**	G4	5.MD.C.3, 5.MD.C.4

2 · How to read the Weekly Pacing Guide

The guide has one row per school week with the three strands side by side. A coloured band opens each domain, a red row marks its domain exam (with the link to the booklet), and a purple row marks the spring MAP window. Under each week, the pink row lists the support block options: real lower-grade lessons (Pre-K up to the grade below) that are the prerequisites for that week's lessons, nearest grade last. Pick one each time a strand has a support block.

Tags. Yellow highlight = power standard. Orange CCSS BUILD = lesson still to be made. Blue COPIED IN = lesson from another grade. Lilac ENRICHMENT = after MAP. ADAPT = UK content to adapt for the US (money, units).

ON A SUPPORT DAY, YOU CAN

- Split a hard lesson across two days: concept first, then method.
- Re-teach or review content that is still shaky, including gaps from the last domain exam.
- Run the pre-teach pack (teacher or TA) for an upcoming lesson, or teach from it if the class is really struggling.
- Teach one of the lower-grade prerequisite lessons listed for that week.

PRE-TEACH PACKS · OPTIONAL, AND ONE OF THE MOST POWERFUL TOOLS YOU HAVE

A pre-teach pack is a 15–20 minute session on the prerequisites a lesson assumes. Use it as extra prerequisite support, so a group walks into the lesson already holding the facts and vocabulary it depends on, or as a targeted intervention for the students you already know will struggle. It can fill any support block. Front-loading the prerequisite is far more effective than re-teaching after the lesson has gone wrong.

THE TEACHING GUIDES · ONE PER LESSON

Every White Rose lesson has a two-sided White Rose Teaching Guide for teachers and TAs of ELL and Tier 2 students: the front is teach the lesson (the lesson in one sentence, the prerequisites, the essential teaching points, a lesson map), the back is respond to thinking (misconceptions, what to say, vocabulary and sentence stems). Read it before you teach and keep it open while you teach. It opens from every lesson on the site.

FLASHBACK 4 AND THE DOMAIN EXAM ROUTINE

Review slots open with Flashback 4 (last lesson / last week / last unit / last term). Because a domain is not taught again after its exam, Flashback 4 is how earlier domains stay alive: pick the deck for the White Rose block a lesson came from (the lesson's paperclip names it). After each domain exam, mark it live where you can and feed the weakest skills into the next support blocks. White Rose materials show money as £/p: adapt to dollars and cents; the maths is unchanged.

3 · Verification summary

STRAND	LESSONS	DOMAIN EXAMS	SUPPORT BLOCKS	CCSS BUILDS
Standard	138	5	34	16
Priority	111	5	64	16
Intervention	79	5	94	16

- Each domain is one unbroken run on every strand, closed by its exam; no domain is taught after its exam.
- Grade-level standards taught before MAP (W30): 26 of 26.
- Domain exams: NBT W09, OA W13, NF W19, MD W28, G W30 · 66 questions checked; every question's skill is taught before its exam.
- Semester split: 2 exams by W14 (Semester 1) · 3 after (Semester 2).
- Lessons are spread over the real QFS calendar by teaching days (177 days; short weeks carry fewer lessons).
- Every support block names real lower-grade lessons with files on the site.
