AWSAJ KINDERGARTEN MATHEMATICS

White Rose (Year 1) mapped to the Common Core
Teaching & Pacing Handbook

2026–2027 · taught one CCSS domain at a time · three pacing strands · for teachers and teaching assistants

LESSONS	123 on the Standard strand: 86 White Rose lessons, 3 copied in from other grades, 4 CCSS custom lessons still to be built, 30 enrichment lessons after MAP
CALENDAR	QFS 2026–2027 · W01 starts 6 Sep 2026 · 39 Sun–Thu weeks · 177 teaching days · Semester 1 is W01–W14
STRUCTURE	5 domain units, each taught in one run and closed by its Awsaj domain exam · MAP Growth window W30 · enrichment W30–W38
STANDARDS	Common Core Kindergarten · 22 grade-level standards, 22 taught before MAP · 7 power standards
STRANDS	Standard 123 lessons (~4 a week) · Priority 104 (~3) · Intervention 70 (~2) · the other days are support blocks
ASSESSMENT	5 Awsaj domain exams (1 count for Semester 1, 4 for Semester 2), all in the Kindergarten Math Assessments booklet · White Rose papers are optional practice
COMPANIONS	Weekly Pacing Guide (landscape, all 39 weeks) · K–5 pacing workbook (spreadsheet) · the curriculum site, where every lesson opens its slides, worksheets, MW4K sheets, teaching guide and support lessons

CHOOSING A STRAND · AND CHANGING IT WHENEVER YOUR STUDENTS NEED YOU TO

Standard · the class is broadly within a year of grade level: about 4 new lessons a week, every lesson. **Priority** · the class carries broad gaps: about 3 a week, the most important lessons for struggling learners, the rest support blocks. **Intervention** · the small-group class: about 2 a week, the essential lessons with support wrapped around them.

The strands are flexible. Move a student, a group or the whole class up towards Standard as soon as the work is secure, and down to Priority or Intervention the moment it stops fitting, in any week and as often as they need it. All three strands teach the same domain at the same time and sit its exam in the same week, so a change at a domain boundary is always clean. Mid-domain a lighter strand may sit a lesson or two behind Standard: a student moving up picks those lessons up in a support block, and moving down never loses a lesson.

DAILY FLUENCY · 10–15 MINUTES, EVERY DAY

Kindergarten uses the Fluency Bee Year 1 book: slides, oral practice, a mini worksheet and talk about the pattern, one scheme step a day. A class below level runs a lower year's Bee. Fluency is kept off the pacing calendar so support blocks stay for grade-level work.

Daily is the part that is fixed. Number facts become automatic through a little purposeful practice every day, and the main lesson assumes those facts are already there. Protect the slot even in a short week. **Where you start is flexible:** find where the facts actually break down and start there.

◎ Kindergarten on one page

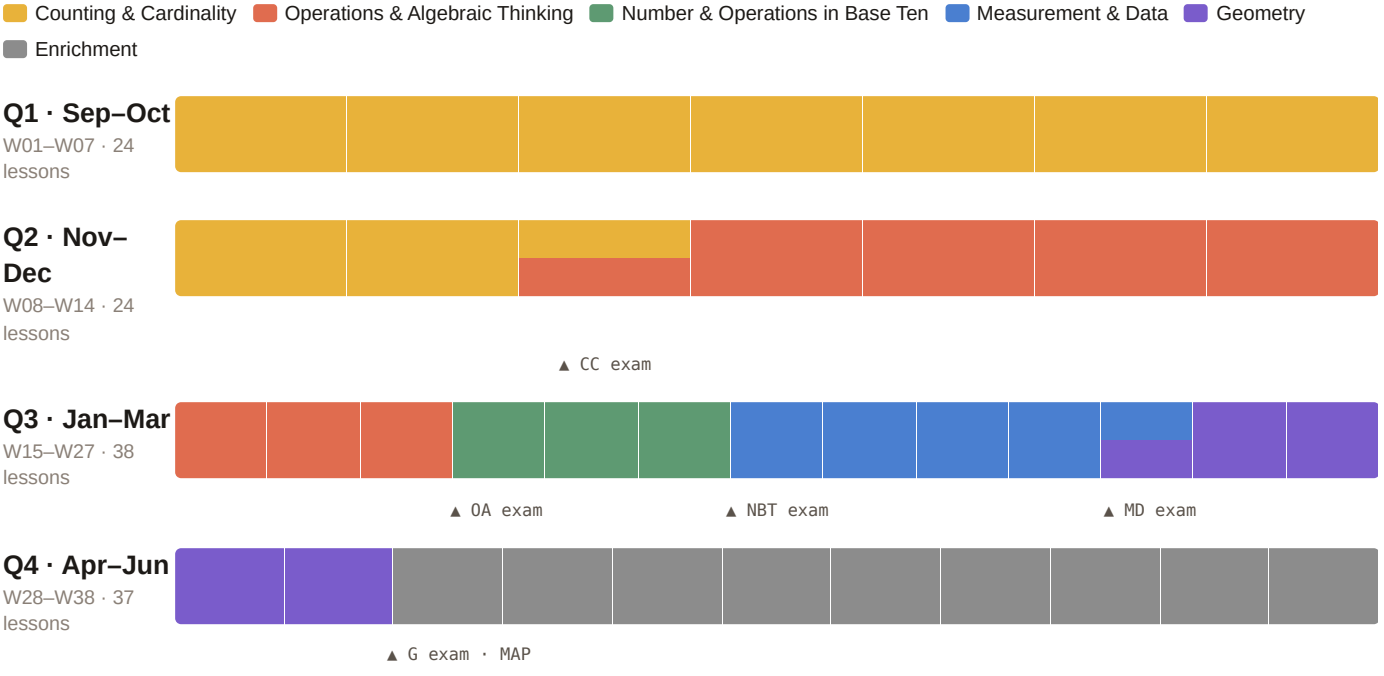

QUARTER	DOMAINS IN TEACHING ORDER · EXAMS · MAP
Q1 W01–W07 · Sep–Oct	**D1 Counting & Cardinality** W01–W10
Q2 W08–W14 · Nov–Dec	**D1 Counting & Cardinality (continues from Q1)** W01–W10 **D2 Operations & Algebraic Thinking** W10–W18 Counting & Cardinality exam W10
Q3 W15–W27 · Jan–Mar	**D2 Operations & Algebraic Thinking (continues from Q2)** W10–W18 **D3 Number & Operations in Base Ten** W18–W21 **D4 Measurement & Data** W21–W25 **D5 Geometry** W25–W30 Operations & Algebraic Thinking exam W18 · Number & Operations in Base Ten exam W21 · Measurement & Data exam W25
Q4 W28–W39 · Apr–Jun	**D5 Geometry (continues from Q3)** W25–W30 **Enrichment lessons** W30–W38 Geometry exam W30 · MAP Growth W30

THE RULES OF THE YEAR

- Each domain is taught in **one run** and closed by its **Awsaj domain exam**, on every strand in the same week.
- Every type of question on a domain exam is taught **before** that exam; where White Rose did not teach a skill here, a lesson is copied in from another grade or a CCSS lesson is listed to be built.
- Every grade-level standard is taught and examined **before the spring MAP window (W30)**; the enrichment lessons come after it.
- A domain is not taught again once it is examined: Flashback 4 and the daily fluency slot keep earlier domains alive, and gaps from an exam go into the next support blocks.
- Exams sat by W14 count for the Semester 1 report; the rest count for Semester 2.

❖ The year at a glance

One column is one teaching week, coloured by the domain the Standard strand teaches that week (a split column is a week where one domain ends and the next begins). ▲ marks a domain exam or the MAP window.

1 · The domains · lessons, power standards and exams

#	DOMAIN	WEEKS	LESSONS S / P / I	POWER STANDARDS	EXAM
D1	**Counting & Cardinality** **Copied in:** Verbal counting patterns (PK)	W01–W10	32 / 31 / 23	K.CC.A.1, K.CC.B.4, K.CC.C.7	W10 S1 report
D2	**Operations & Algebraic Thinking** **To build:** Add and subtract within 5 written vertically (column form)	W10–W18	26 / 24 / 17	K.OA.A.5	W18 S2 report
D3	**Number & Operations in Base Ten**	W18–W21	9 / 9 / 9	K.NBT.A.1	W21 S2 report
D4	**Measurement & Data** **To build:** Sort into categories, count each group and find the total	W21–W25	12 / 10 / 6	K.MD.A.1	W25 S2 report
D5	**Geometry** **To build:** Build and draw shapes; Compose shapes from smaller shapes **Copied in:** Count sides on 2D shapes (G1); Count vertices on 2D shapes (G1)	W25–W30	14 / 12 / 9	K.G.A.1	W30 S2 report
E	**Enrichment lessons** After MAP: lessons White Rose teaches here that reach above grade level, plus end-of-year work.	W30–W38	30 / 18 / 6	·	·

THE DOMAIN EXAMS · KINDERGARTEN MATH ASSESSMENTS BOOKLET

WEEK	EXAM	REPORT	QUESTIONS	BOOKLET
W10	**Counting & Cardinality**	Semester 1	8	Counting & Cardinality Test · Grade (K). Math Assessments
W18	**Operations & Algebraic Thinking**	Semester 2	8	Operations & Algebraic Thinking Test · Grade (K). Math Assessments
W21	**Number & Operations in Base Ten**	Semester 2	7	Number & Operations in Base Ten Test · Grade (K). Math Assessments
W25	**Measurement & Data**	Semester 2	5	Measurement & Data Test · Grade (K). Math Assessments
W30	**Geometry**	Semester 2	6	Geometry Test · Grade (K). Math Assessments

All of a grade's exams are in one booklet in the shared 2025-2026 Math Assessments folder; each link opens it. Every question was checked against the lessons taught before its exam.

CCSS LESSONS STILL TO BE MADE · 4

White Rose does not teach these standards in this grade, so an Awsaj lesson has to be written. Until it is, use the Twinkl search, the MW4K sheets and the prerequisite lessons on the lesson's paperclip on the site.

WEEK	LESSON	CCSS	DOMAIN
W15	**Add and subtract within 5 written vertically (column form)**	K.OA.A.5	Operations & Algebraic Thinking
W21	**Sort into categories, count each group and find the total**	K.MD.B.3, K.CC.B.5	Measurement & Data
W29	**Build and draw shapes**	K.G.B.5	Geometry
W29	**Compose shapes from smaller shapes**	K.G.B.6	Geometry

LESSONS COPIED IN FROM ANOTHER GRADE · 3

Each one closes a gap between what the domain exam asks and what White Rose teaches in this grade. Teach it from the source grade's files (they open from the lesson on the site).

WEEK	LESSON	FROM	CCSS
W01	**Verbal counting patterns**	PK	K.CC.B.4
W28	**Count sides on 2D shapes**	G1	1.G.A.1
W28	**Count vertices on 2D shapes**	G1	1.G.A.1

2 · How to read the Weekly Pacing Guide

The guide has one row per school week with the three strands side by side. A coloured band opens each domain, a red row marks its domain exam (with the link to the booklet), and a purple row marks the spring MAP window. Under each week, the pink row lists the support block options: real lower-grade lessons (Pre-K up to the grade below) that are the prerequisites for that week's lessons, nearest grade last. Pick one each time a strand has a support block.

Tags. Yellow highlight = power standard. Orange CCSS BUILD = lesson still to be made. Blue COPIED IN = lesson from another grade. Lilac ENRICHMENT = after MAP. ADAPT = UK content to adapt for the US (money, units).

ON A SUPPORT DAY, YOU CAN

- Split a hard lesson across two days: concept first, then method.
- Re-teach or review content that is still shaky, including gaps from the last domain exam.
- Run the pre-teach pack (teacher or TA) for an upcoming lesson, or teach from it if the class is really struggling.
- Teach one of the lower-grade prerequisite lessons listed for that week.

PRE-TEACH PACKS · OPTIONAL, AND ONE OF THE MOST POWERFUL TOOLS YOU HAVE

A pre-teach pack is a 15–20 minute session on the prerequisites a lesson assumes. Use it as extra prerequisite support, so a group walks into the lesson already holding the facts and vocabulary it depends on, or as a targeted intervention for the students you already know will struggle. It can fill any support block. Front-loading the prerequisite is far more effective than re-teaching after the lesson has gone wrong.

THE TEACHING GUIDES · ONE PER LESSON

Every White Rose lesson has a two-sided White Rose Teaching Guide for teachers and TAs of ELL and Tier 2 students: the front is teach the lesson (the lesson in one sentence, the prerequisites, the essential teaching points, a lesson map), the back is respond to thinking (misconceptions, what to say, vocabulary and sentence stems). Read it before you teach and keep it open while you teach. It opens from every lesson on the site.

FLASHBACK 4 AND THE DOMAIN EXAM ROUTINE

Review slots open with Flashback 4 (last lesson / last week / last unit / last term). Because a domain is not taught again after its exam, Flashback 4 is how earlier domains stay alive: pick the deck for the White Rose block a lesson came from (the lesson's paperclip names it). After each domain exam, mark it live where you can and feed the weakest skills into the next support blocks. White Rose materials show money as £/p: adapt to dollars and cents; the maths is unchanged.

3 · Verification summary

STRAND	LESSONS	DOMAIN EXAMS	SUPPORT BLOCKS	CCSS BUILDS
Standard	123	5	49	4
Priority	104	5	74	4
Intervention	70	5	102	4

- Each domain is one unbroken run on every strand, closed by its exam; no domain is taught after its exam.
- Grade-level standards taught before MAP (W30): 22 of 22.
- Domain exams: CC W10, OA W18, NBT W21, MD W25, G W30 · 34 questions checked; every question's skill is taught before its exam.
- Semester split: 1 exams by W14 (Semester 1) · 4 after (Semester 2).
- Lessons are spread over the real QFS calendar by teaching days (177 days; short weeks carry fewer lessons).
- Every support block names real lower-grade lessons with files on the site.
