Kindergarten Weekly Pacing Guide · 2026–27

CCSS domain sequence · WR Year 1

ONE DOMAIN AT A TIME. Each unit teaches one Common Core domain in one run and ends with its Awsaj domain exam (red rows), sat on every strand in the same week. Every grade-level standard is taught before the spring MAP window (purple row); the enrichment lessons come after it. **THE STRANDS ARE FLEXIBLE · MOVE BETWEEN THEM IN ANY WEEK.** Move a child or the class up towards Standard when they are secure and down to Priority or Intervention when they are struggling, as often as they need it. All three strands teach the same domain at the same time, so a change at a domain boundary is always clean; mid-domain a lighter strand may sit a lesson or two behind, so a child moving up picks those lessons up in a support block.

Three strands, one map. Yellow = power standard. CCSS BUILD · TO BE MADE = Awsaj lesson for a standard White Rose does not teach; the lesson still has to be written. COPIED IN · G3 = a lesson borrowed from another grade so every exam question is taught first; teach it from that grade's files. ENRICHMENT = after MAP. ADAPT = UK content to adapt for the US. Pink = support block options (pick one). Daily fluency sits off this calendar.
